

# UNLOCK THE CLOUD

UNLEASH THE POSSIBILITIES OF A  
ONE-STOP-SHOP CLOUD PROVIDER

## ABOUT SEQUIRE

---

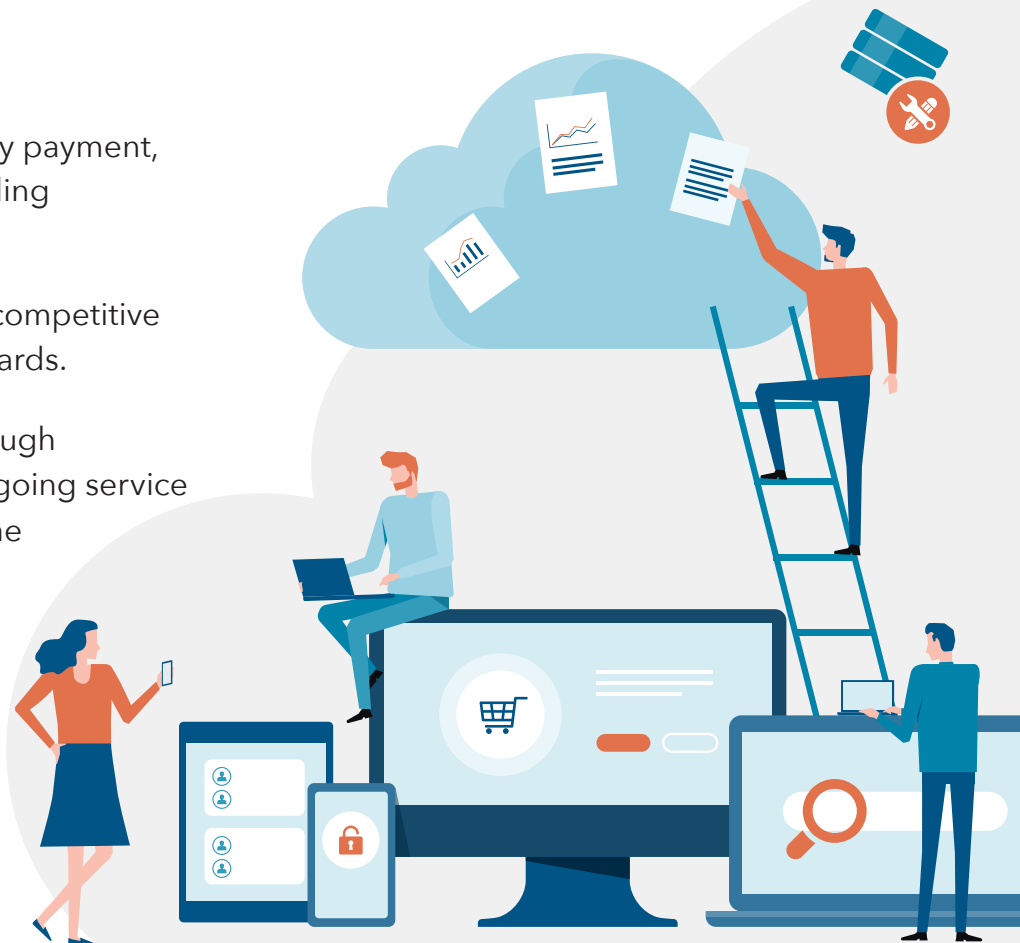

Sequire is a premier source for today's most advanced cloud technology. As a full-service technology management partner, we're committed to delivering services that decrease downtime and increase productivity. With us, expect custom solutions that help your company collaborate more effectively.

From industry-leading cloud applications to flexible business communication platforms, Sequire provides the resources for our most unique customers. Whether you're starting up, building momentum, or going global, you can count on us to help guide your business in the right direction.

## WHY SEQUIRE?

---

- **Simplicity:** ONE bill, ONE monthly payment, ONE company - for all your building technologies.
- **Pricing Models:** By line or seat; competitive pricing based on industry standards.
- **Peace of Mind:** Full support through implementation, installation, ongoing service and maintenance is located in the heart of the USA – Not offshore!
- **Monitoring:** We offer 24/7 proactive monitoring of ALL our cloud solutions – included in the monthly payment.

# OUR PHILOSOPHY

---

Sequire is a strategic partner that helps drive your business forward. We are motivated by one goal: to simplify the way your business deploys cloud solutions allowing you to focus on your customers. We work closely with our clients through continuous development, maintenance, and service. Whatever challenge you face, you can rest confidently knowing that you have proactive, preventative, and responsive support from professionals who care.

# OUR EXPERTISE

---

## **Unified Communication and Collaboration**

Fully featured system with presence, chat, PBX, SIP trunking, and conferencing and collaboration features.

## **Conference Room as a Service**

Collaborate, host meetings, and share information without the overhead cost.

## **Cloud Firewall**

Network protection solutions that prevent viruses, spyware, worms, trojans, and key loggers

## **Cloud Offerings**

Wifi as a Service, Access Control as a Service, Video Surveillance as a Service, and LAN as a Service.

No tricks or gimmicks – save money by *unlocking the full potential of the cloud*
